

LESSONS FROM AFRICA

Dr. Rispah Walumbe
Amref Health Africa

EMERGING ISSUES:

- Impact healthcare, economic, and social sectors in the context of recovery
 - Multi-sectoral action
 - Impact of clear leadership
 - Preparedness, adaptability, and execution
-

OPPORTUNITIES:

Re-evaluation of Health Systems and their design

Appetite for the uptake of innovations that increase access to care, deliver efficiency, and enhance quality

Regional commitment to self-reliance and resilience

NEXT STEPS:

- Strategic investments in the health sector that equip a self-reliant and resilient healthcare system
 - Focus on long-term impact and guided by the approach governments have identified and can carry to fruition
 - Engage our regional mechanisms and align our priorities to leverage on our strengths as a region
 - **Advocacy:** Underlying focus on reversing and eliminating inequities (at individual, community, country and regional level)
-
